

# FRAMELESS GLASSWALLS

CLEARLY VISIONARY GLASSWALL PARTITIONS

## Seascape Resort Aptos (Santa Cruz), California USA

*Hufcor Glasswalls are used to close off the entrance to the shops of Seascape Resort in Aptos, California*

*The panels are easily and quickly moved into position when the store is closed. With no floor track, there is no accumulation of unsightly debris and no safety concerns.*

*Glass panels are stored on a stack when not needed.*

### PROJECT DESCRIPTION

Glasswall was the perfect choice for the hotel manager who wanted to secure this gift shop and allow hotel guests to “window shop” during off hours.

The hotel previously consulted with B. T. Mancini, the Hufcor distributor, for their hotel meeting rooms’ space division needs. To meet this new challenge, B.T. Mancini designed a secure glasswall system that allows an unobstructed view of the merchandise available within the store. Glasswall allows the entire store to become a window display.

The glasswall panels are stored in an unobtrusive stack when not needed. The sandpiper graphics are applied to the face of the glass to add a simple accent to the decor.
